PLANNING BOARD
TECHNICAL REVIEW COMMENTS**

PROJECT: SHOPPES AT UNION SQUARE
PROJECT NO.: 18- 10
PROJECT LOCATION: SECTION 96, BLOCK 1, LOT 6.2
REVIEW DATE: 30 MAY 2018
MEETING DATE: 7 JUNE 2018
PROJECT REPRESENTATIVE: LANGAN ENGINEERING

1. Plans submitted on most recent sheets identifying the new layout contained Phase I in the Title Block. For consistency, reference to Phase II should be utilized for this amended site plan modification, which seeks to change the former Staples use into smaller retail uses.
2. The Applicant's representative are requested to perform a SEQRA consistency evaluation for use by the Planning Board. Former impacts evaluated should be compared to proposed intensity of use including traffic count, parking, water, sewer, impervious surfaces, stormwater management etc. Revised traffic reports, stormwater management reports/updates, sanitary sewer hydraulic loading should be provided for the site. Planning Board will utilize this information in making a determination as to the review of the project under SEQRA.
3. Status of any previous approvals and permits should be addressed. Provide copies.
4. Stream classification for the stream crossing site should be confirmed with NYSDEC.
5. Future details of the proposed outdoor seating area should be provided.
6. Will provisions to access the Phase III parcel be constructed during the Phase II construction.
7. Long Form EAF submitted should be filled out utilizing the DEC's interactive website which will populate certain fields which the DEC has information in their data bases.
8. We would recommend that plans submitted continue to depict proposed improvements for Phase III for the revised SEQRA review and amended site plan to preserve those uses on

Phase III which currently are in the concept phase.

9. Architectural review of the buildings will be undertaken in the future, however it appears that the buildings will be required to have two front facades as parking accesses the east and west side of the proposed structures.
10. Evaluate an accessible link between the south side of Building D and the Vitamin Shop sidewalk.
11. Plans should address loading dock and deliveries to the retail facilities.
12. Parking areas are required to have 5% landscaped areas. Applicant's representative are requested to evaluate this portion of the code.
13. Further review will be undertaken upon receipt of detailed plans and reports.

Respectfully submitted,
