TOWN OF NEWBURGH
TOWN ENGINEER

MEMORANDUM

TO: G. Piaquadio, Supervisor & Town Board
FROM: P. Hines, Rep Engineer for TON *PH*
DATE: 4 May 2023
RE: GHD SCADA Integration Proposal
(Supervisory Control and Data Acquisition)
Chadwick Lake Filter Plant Resiliency Project

The attached proposal from GHD Engineers is for the integration and controls at the Chadwick Lake Filter Plant regarding the connection of the trailer mounted filter and PAC feed system. GHD is the Town's SCADA contractor. They are the programmers for the system and are most familiar with the SCADA system. GHD will work with the contactor, TAM and design engineers, HDR to integrate the data and control systems. A detailed breakdown of the scope of work is included in the proposal.

GHD proposes to perform the SCADA integration and other services for a lump sum cost of \$19,500.

This action requires Town Board approval.

Cc: J. Osborne, Town Engineer
R. Clum, Town Accountant
M. Taylor, Town Attorney

285 Delaware Avenue, Suite 500

Our ref: 12605461

21 April 2023

Mr. James Osborne
Town Engineer
308 Gardnertown Road
Newburgh, NY 12550

SCADA Integration for Trailer/PAC Systems at Chadwick Filter Plant

Dear Mr. Osborne:

As part of the on-going upgrade to the Town of Newburgh's Chadwick Lake Filtration Plant control system, two new pieces of process equipment need to be integrated into the existing plant SCADA system.

The first is a Membrane System Trailer (Trailer) that will operate as a standalone process system. The Membrane System Trailer Local Control Panel (MS-LCP) includes a PLC based control system and Operator Interface Terminal (OIT) that provides local control and monitoring of the Trailer process. SCADA integration for the Trailer involves developing HMI screens that mimic the trailer OIT screens to allow remote monitoring of the process.

The second piece of equipment is a Powdered Activated Carbon treatment (PAC) system that is installed at the Chadwick Lake facility. SCADA integration for the PAC system involves developing PLC logic and HMI screens to allow the system to operate as intended.

GHD has prepared this proposal to support the control system design and software development effort associated with these upgrades. The information listed below is based on a Webex meeting on 11/15/22 and a site meeting on 12/9/22 with HDR, TAM, and Town personnel.

1. Membrane System Trailer SCADA Integration Details/Assumptions

- a. HDR has indicated that four Trailer OIT screens will need to be developed (converted) for the plant SCADA system.
 - i. HDR will provide detailed graphics for these screens.
 - ii. HDR will provide a PLC memory map (points lists/tags) for status information associated with these screens.
- b. GHD will develop SCADA HMI graphics and alarms based on the Trailer OIT screens and points lists.
 - i. GHD will submit HMI graphics for review prior to startup/commissioning of the Trailer.
- c. Two new level transmitters (LITs) are being installed as part of the Trailer integration.
 - i. While these LITs have been installed and wired to the Chadwick PLC (by TAM), GHD will need to coordinate/verify the location (PLC module, channel) for connecting these LITs. This is necessary due to the existing spare analog input points are on modules that were damaged during the PLC upgrade project.
 - ii. GHD will coordinate PLC drawing updates for the addition of these LITs (with Aqualogics).

- iii. The Chadwick PLC program will need to be updated to configure these new analog inputs and scale the instrument feedback into appropriate engineering units.
- iv. The level feedback will be made available for communication from the Chadwick PLC to the Trailer control system. The specific method of communication will be determined during design.
- d. The Trailer control system will be connected to the Chadwick Lake control system network to provide the communication link to the MS-LCP.
 - i. HDR/TAM is responsible for all hardware (Ethernet switches, media converters) and cabling (CAT6, fibers) associated with this link.
- e. GHD PLC/SCADA support during commissioning of the Trailer will be performed remotely (via LogMeIn).

2. PAC System SCADA Integration Details/Assumptions

- a. A local hardwired control system allows for the operation of the PAC system. The interface between this system and the Chadwick PLC will allow status monitoring and manual on/off control from SCADA screens.
 - i. Reference VeloDyne dwgs 050-2309-0004 and S&W Controls/TAM dwgs 13-181.
- b. SCADA integration of the PAC system also includes monitoring of:
 - i. Fire protection system.
 - ii. Eyewash stations (two).
 - iii. Heat trace system.
- c. GHD will develop PLC software and SCADA HMI graphics and alarms to will allow status monitoring and manual on/off control.
- d. GHD will submit HMI graphics for review prior to startup/commissioning of the PAC system.
- e. HDR/TAM is responsible for designing and installing the I/O interface between the PAC system and plant PLC.
 - i. GHD will coordinate PLC drawing updates for these additions (with Aqualogics).
- f. GHD PLC/SCADA support during commissioning of the Trailer will be performed remotely (via LogMeIn).

GHD will provide the SCADA Integration support based upon the details/assumptions listed above on a lump sum basis for a fee of \$19,500.

GHD anticipates being able to meet the commissioning schedules that have been provided by HDR, i.e.:

- PAC System August 25, 2023
- Membrane System Trailer July 28, 2023

The PLC/SCADA development will be coordinated with HDR to achieve this schedule.

This assumes all information required by GHD to complete the PLC/SCADA design (e.g., PCN, graphics) is available in a timely manner.

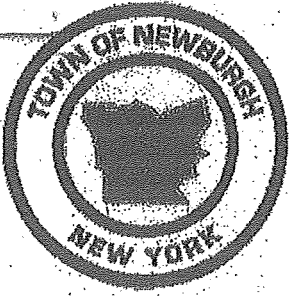

GHD appreciates the opportunity to provide this proposal. This work would be performed by GHD Consulting Services Inc., and any subsequent purchase orders should be issued accordingly.

Please do not hesitate to call the undersigned should have any questions.

Regards,

Michael O'Donnell

RE: Approval of proposed road names
For the Patton Ridge Subdivision

Dear Supervisor Plaquadro and Town Board Members:

84 Realty, LLC is the owner of a parcel of land situated on Patton Road which has received conditional final subdivision approval from the Town of Newburgh Planning Board. The project proposes two cul-de-sac roadways which will serve sixteen single family residential lots. One of the conditions of approval instructs the applicant to secure approval of proposed road names from the Town Board. Accordingly, kindly let this communication serve to request that the Town Board approve two of the following six road name options, one each for Road A and Road B:

Road A:
Bernie Court
Cannon Drive
Sapwood Drive

Road B:
Raizy Court
Lillian Place
Hardwood Drive

A copy of the subdivision map is herewith attached so that the Board can visualize the project. Should you require anything further please advise.

Respectfully,
84 Realty, LLC

Good evening,

I have 2 subdivisions that Joe Mattina at the Building Dept advises that I will need to provide street names as there are no numbers available for the new building lots.

Both subdivisions are on Union Ave.

The first is.....

Hudson Asset Homes, LLC
Filed Map 4-23
Planning Board 2022-10
Original parcel is 34-1-25.15
Lot 1 is 34-1-25.151
Lot 2 is 34-1-25.152

Street name choices.....

- 1--Thayer Lane
- 2--Snyder Way
- 3--Slenker Lane

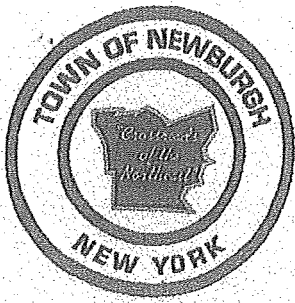

Second is.....

Crossroads Construction & Management, LLC
Filed Map 9-23
Planning Board 2022-15
Original parcel 62-3-5
Lot 1 is 62-3-5.1
Lot 2 is 62-3-5.2
Lot 3 is 62-3-5.3

Street name choices.....

- 1--Magrit Way
- 2--Mackenzie Lane
- 3--Tegan Lane

Please advise if any additional info is needed as I need to provide Joe with the names prior to him being able to issue my building permits.
