**NARRATIVE SUMMARY
AUGUST 16, 2018**

**39 SOUTH PLANK ROAD
TAX LOT 72-13-5
TOWN OF NEWBURGH, ORANGE COUNTY, NY
MC PROJECT NO. 18000173A
PB # 2018-16**

Maser Consulting, P.A. has developed the attached Sketch Site Plan package for the above referenced parcel. The existing tax lot (72-13-5) is approximately 0.30 acres in size and has frontage along NYS Route 52 (South Plank Road) to the northeast. The lot is currently developed with a 2-story building (1,064 sq. ft), front and rear parking areas, and other typical site improvements. The site is located within the Town's Business (B) zoning district which permits 'retail stores & personal service stores and uses; health clubs and fitness facilities' with site plan approval by the Planning Board. There are no wetlands on site and the site is not located within a Flood Plain. The project is currently serviced by water connection to the main in NYS Route 52 and has an on-site septic system. The parcel is located within the Town's Consolidated Water District and Crossroads Sewer District.

The applicant proposes to renovate the existing 2-story building (1,064 sq. ft.) for use as a licensed massage therapy and cosmetologist office with two (2) employees. These services include massages, hair removal, skin care, facials, and nail services. All services are by appointment only. Initially, the first floor of the building will be used for therapy and the second floor will be used for storage purposes. In the future, the second floor may be utilized for offices or therapy. Site work associated with the proposed use includes, restriping the existing paved area to create one (1) ADA accessible space along with four (4) standard parking spaces for a total of five (5) parking spaces. A personal service use of this size requires seven (7) parking spaces; therefore a variance of two (2) parking spaces is required from the Zoning Board of Appeals. Pre-existing non-conforming conditions exist for the following bulk requirements; lot area, lot width, front setback, and side setbacks. The building will maintain utilizing its existing water service and on-site septic system. The existing curb cut to NYS Route 52 will remain unchanged.
