Subject: Fowler hearing snyder ave Walden

Thank you for taking the time to read my comment. I purchased my house in 2005 and moved up from Queens. The reason I purchased my residence is the lake. Mr. Fowler is planning on demolishing a small rental house to construct a 3 story garage. If the garage is built it will take my view from me. My main concern is how it will effect my property values by severely limiting my view. I would not be commenting if this was a primary residence that a family need the room , but to lose my view and have my property values possibly decrease because of a garage that is approximately 22' tall. I do not think is fair.

Thank you for your time
