The 1,876 SF residence has been vacant for a number of years, during which time it has been vandalized by the removal of all of the copper plumbing; the roof has leaked in the frame addition causing the carpeting to get wet and rot the basement beams so badly that the structure above it has become unsafe; and, a severe mold problem has developed. The stone section of the dwelling has only two rooms – a living room and above it a bedroom. While this building has also suffered from the cold and lack of ventilation, it is not as severe as the frame addition. However, without the frame addition, it lacks functionality. It is therefore my recommendation that the entire residence – stone and frame be razed; the cost of which must be deducted from the overall value of the land.

Using comparable sales in the Town of Newburgh, I was able to estimate that the value of the 1.6 acres of land – without any buildings on it, was \$64,500.

Demolition and removal costs were calculated by use of the Marshall and Swift Appraisal Manual (excluding the barn and outbuilding). The cost of demolition and removal were determined to be \$7,850 (\$4.18/SF). Dumping fees were estimated to cost \$5,000.

The total cost of demolition, removal and dumping fees is thus \$12,850.

The remaining value of the land equates to \$51,650.

As previously mentioned, my full appraisal report has been forwarded to you and this report contains all of the data that I have relied upon to formulate the value conclusions summarized above.

## PROPOSAL TO THE TOWN OF NEWBURGH

Dated: 11-12-14

Robert George and Elizabeth Ann Leonard (husband and wife) jointly offer to buy from the Town of Newburgh the "Baxter Property" located at 617 Route 32, Newburgh, NY. The 1.6 acre parcel includes a 100+ year old part stone and part wood structure consisting of three bedrooms and one bath, a workshop and a 3 seat outhouse.

This is a cash offer for \$40,000.00 (forty thousand and no/100 dollars).

Proposed "Scope of Work" to the property is as follows:

- 1) Demolish wood structure. Current wood structure is full of black mold/rot and has been vandalized making it unfeasible to restore.
- 2) Rebuild new wood portion (same 'footprint') to fit style of stone portion of house, repurposing any salvageable materials.
- 3) Save and restore stone section of house (new roof, floor joist, concrete slab in basement, electrical, plumbing, strip lead paint from all doors and trim inside and out and refinish).
- 4) Remove four large trees (locust & pine) endangering the structure.
- 5) Restore workshop.
- 6) The additional original "Baxter Property" owned by the Town of Newburgh has two large barns located on them. One is in good condition and the other poor. We offer to the town of Newburgh to remove the barn in poor condition, free of cost, leaving only its foundation and pad. We will take any salvageable materials for ourselves and dispose of the rest.

## COMMENTS:

The site was inspected on Tuesday December 16. Work listed on the inspection memorandum dated November 15, 2013 was completed. Most trees appear to be alive and well although it is difficult to accurately assess trees this time of year. A couple of street trees near the entrance to the site appear to be mostly dead. The applicant has had trees replaced several times. It is my recommendation to release the rest of the bond at this time, although the board may want to wait until trees leaf out in the spring for a more accurate assessment.

According to my records, the remaining bond held for this project is \$49,410. The bond was incrementally released previously.

OUR FILE NO. 801. \_\_\_\_\_

DATE: DECEMBER 9, 2014

Enclosed please find a Bond Resolution for the above project for the Town Board's consideration. As you know, the Board has previously conducted a public hearing and adopted a Public Interest Order following the close of the public hearing held on October 20, 2014.

Please note that the Bond Resolution provides for an authorization for the issuance of bonds in a lesser amount than the total project costs based upon the Town's estimation of available funds for the project already in hand.

Should you have any questions in this regard, please feel free to contact me.

Gil,

Attached is the letter commitment GHD received from Fred Cook Co. regarding the Meadow Hill South SSES work. GHD was hoping for a more comprehensive letter, but Fred Cook appears to be committed to the work.

Based on your review of the attached letter, please consider putting this item on the agenda for the 29<sup>th</sup> meeting. GHD will need to gear up to catch the march to may window for excessive flows.

If you have any questions, you can reach me at this e-mail address.

Jim,

I've struggled to get a commitment letter from Fred Cook. I don't believe it was because they were opposed to providing one, just due to their lack of responsiveness.

Attached is what they sent me today. I asked them to revise the letter to include the cost structure and their commitment to their quoted prices. I will forward the revised letter on to you as soon as I get it.

In speaking with Brian Cook, he is enthusiastic about doing the work and completing it for their quoted prices while meeting the schedule.

Please feel free to contact me. Have a great holiday!

Joe,

The Town Board was concerned about the potential spread of the costs for the subcontractor's work. Is it possible to get a letter of commitment from Fred Cook to lock in the lower costs. If we can get that, I think the Board is ready to approve the proposal. Let me know how you make out. Maybe we can get this on the agenda for Dec 29<sup>th</sup>.

FYI - I will be in the office until Dec 19 (AM only). If you need to communicate with me after that my personal e-mail is josborne1@hvc.rr.com.

Jim,

Here is their revised commitment letter with the cost structure included. I feel much more confident with this version. In case they're encountered, I had them add a line item for clearing intruding laterals, just so the price is known now. The cost for this would be covered with the contingency.

These prices are hard to beat, and they are also utilizing newer technology camera equipment which will be nice.

Let me know if you need anything else. Happy Holidays to you as well!
