TOWN OF NEWBURGH
CONSOLIDATED WATER DISTRICT
ORANGE COUNTY, NEW YORK

PROPOSED ACQUISITION OF
TAX MAP # 121-2-1 AND
TAX MAP # 121-2-2

MAY, 2019

JAMES OSBORNE, P.E.
TOWN ENGINEER
TOWN OF NEWBURGH
1496 ROUTE 300
NEWBURGH, NY 12550

The Town of Newburgh, on behalf of the Newburgh Consolidated Water District (CWD), is proposing to purchase approximately 5.4 acres of Tax Map # 121-2-1, all of which is under water land and approximately 7.3 acres of Tax Map #121-2-2 of which approximately 0.95 acres is under water land. The proposed purchase price for this property is \$736,000. The funds will be taken from the 2019 Operating Budget of the Consolidated Water Department.

The land(s) to be purchased by the CWD is shown on Figure 1 (attached). The remainder of these lots will be purchased by the Town of Newburgh for parkland to provide public access to the Hudson River. A portion of Tax Map # 121-2-2 is encumbered by several easements including a drainage easement to the benefit of the Anchorage Subdivision. A storm-water control and treatment pond is located in the easement. In addition, the Seller is retaining groundwater rights in the property for a maximum period of twenty five (25) years. The groundwater rights will be leased to the Town on behalf of the CWD at a rate of one dollar per thousand gallons (\$1/1000 gallons) to a maximum aggregate rent of six hundred thousand dollars (\$600,000), the CWD being under no obligation to draw the groundwater.

As explained in detail below, the purpose of this land purchase is for the future development of a new groundwater supply to meet the Town's future water demands.

The Town of Newburgh currently meets its water supply needs and the Town of Marlborough's in Ulster County from two surface water supplies. The larger supply is from the New York City Delaware Aqueduct (Shaft No. 5A). The water taken from the Aqueduct is treated at the Town of Newburgh Delaware Aqueduct Tap Water Treatment Plant with a production capacity of 6.0 million gallons per day (mgd). The smaller water supply is the Chadwick Lake Reservoir and Chadwick Lake Filter Plant with a limited water production capacity of 2.2 to 2.4 mgd. These two supplies are designed to meet the Town's water demands through 2030 when the Town's demands will be 4.5 mgd for average day and 8.0 mgd for maximum day.

Any municipality connected to the New York City water system is required by contract to maintain back-up water supplies. This requirement allows New York City to perform maintenance work on its aqueducts and if necessary take them offline. In addition to routine maintenance, New York City is planning on undertaking repairs of the aqueduct which will require that it be out of service for a period not to exceed 9 months.

The treatment capacity of the Chadwick Lake Filter Plant of 2.5 mgd is not sufficient to meet the town's water production requirements with the NYC Delaware Aqueduct offline. For the proposed long term shut down in 2021, the town has entered into an agreement with the Town of New Windsor to supply up to 2 mgd to the Town of Newburgh. Unfortunately, this commitment of a fixed amount of water supply expires in 2025 and the agreement defaults to an emergency supply based on available excess capacity.

To address its contractual requirement to have a back-up supply and to address the future reduction in the availability of water from New Windsor, the Town is evaluating its water supply options including the development of new groundwater supplies. An offer was made to

the Town for this property for the specific purpose of developing a new well. The Town engaged Leggette, Brashears & Graham (LBG), professional hydrogeologists, to conduct an evaluation of the production potential of this site utilizing an existing test well that the original developer installed. In their September, 2017 report LBG projected a minimum production capacity of 500 gpm (0.72 mgd). Based on these results, the Town is moving forward with the purchase of these properties.

The projected costs for this proposed property acquisition are given below:

Purchase Cost	\$ 736,000
Surveying	9,000
Environmental Assessment	3,000
Title Report & Insurance	5,000
Legal	5,000
Misc.	<u>45,000</u>
TOTAL:	\$803,000

The payment of these costs will be from the 2019 Operating Budget of the Consolidated Water District. No short or long term financing will be required.

DANIEL G. LOUCKS, P.E.

Re: Proposal for Subsurface Investigation for Proposed Route 9W Roadway Crossing for Roseton
WWTP, Roseton, NY
File No. 3538

INTRODUCTION:

This proposal has been prepared to provide you with a description of the proposed investigation and the unit prices for performing the subsurface investigation. I have also included my understanding of the proposed boring work. An estimate of the number of units required to perform the services and an estimated total cost for the investigation has also been included.

I understand that two soil borings are required for the proposed roadway crossing. I understand that each boring is required to extend to 20 feet. If refusal is encountered before 18 feet a 5 foot long rock core should be taken at each location. The borings will be performed at either the edge of the road, or adjacent to the bottom of the slope on the north bound side.

The scope of my services will be limited to coordinating the boring and laboratory investigation, analyzing the soil information, and providing a geotechnical letter report with the classified soil boring logs. Any environmental aspects of the project should be performed by qualified others.

Soil index tests will be performed on representative samples after the field investigation has been completed.

Following the investigation and any laboratory testing, a geotechnical letter report with the results of the field investigation and laboratory testing along with boring logs will be submitted to your office.

UNIT PRICES AND ESTIMATED COSTS:

Allied Drilling Inc. of Sparkill, New York provided the unit prices for the drilling. The prices will be valid provided they are able to perform this portion of the work. **The drilling company will bill separately.** Truck access has been assumed if clearing or snow removal is required it should be provided by the owner. The driller also assumes on site disposal of soils and level D conditions. If an ATV is required there will be an additional cost of \$1300.00/day. Prevailing wage rates have been applied. The drilling contractor will provide signs and cones for the roadway along with one flagman.

UFPO locating service will be notified to assist in the location of major utilities at the site. Final location of utilities within the property is the responsibility of the owner. If requested by the owner a locating service can be contracted to provide these services at an additional cost.

The following are the estimated amounts of services required with the unit prices, subtotals and totals:

DRILLING:

Drilling & Flagman	2 at \$3500.00/day =	7000.00
DOT Permit		500.00
Client Delay	at \$250.00/hour =	

Estimated Total Drilling		\$ 7500.00

LABORATORY TESTING:

Grain size w/o Hydrometer	3 at \$45.00 each =	135.00

Estimated Total Testing		\$ 135.00

ENGINEERING:

Letter Report and Logs		\$ 600.00
Daniel G. Loucks, P.E.	at \$130.00/hour =	
Mileage (where applicable)	at \$.50/mile =	
Additional Consulting or Meetings at the above rates:		

Estimated Total Engineering		\$ 600.00

ESTIMATED PROJECT TOTAL \$ **8235.00**

More of some units may be done and less of others. You will only be charged for the work performed. The budget will not be exceeded without approval. Payment is due within 30 days of the invoice date. An interest rate of 2% will be assessed for each month past the due date.

This agreement provides a final and complete understanding between the client and engineer. It supersedes all prior or concurrent communications, representations, or agreements, whether oral or written, relating to the subject matter of this agreement.

Acceptance of this agreement as provided for below signifies that the client has read the document thoroughly and has had any independent counsel and is satisfied. Client and engineer agree that modifications to this agreement shall not be binding unless made in writing and signed by an authorized representative of each party.

If there are any questions with regard to this proposal, please feel free to call.

Yours truly,

Daniel G. Loucks

ATTENTION: JIM OSBORNE, TOWN ENGINEER
**SUBJECT: A. DUIE PYLE MAINTENANCE BUILDING
STORMWATER SECURITIES ESTIMATE**

Dear Jim,

This office has received an Engineers Estimate of Probable Construction Costs prepared by Langan Engineering for the subject project. The cost estimate was prepared based on improvements identified on plans last revised 22 May 2019. The Cost Estimate totals \$176,100.00. Based on a review of the plans and cost estimate this office takes no exception to the Town of Newburgh accepting Performance Security in the amount of \$176,100.00 for the subject project. An initial inspection fee deposit of \$4,000. Is also required

Please feel free to contact the undersigned should you have any questions, comments or require any additional information regarding this matter.

Very Truly Yours,

**McGoey, Hauser & Edsall
Consulting Engineers, D.P.C**

ENGINEER'S ESTIMATE

DESCRIPTION OF ITEM	QUANTITY	UNIT	COST	TOTAL COST
Stormwater Management System				
1 Stormwater Pipe (8") HDPE	276	LF	\$ 40.00	\$ 11,000
2 Stormwater Pipe (18") HDPE	190	LF	\$ 52.00	\$ 9,880
3 Catch Basin	1	EA	\$ 3,130.00	\$ 3,130
4 Connection to Existing Catch Basin	4	EA	\$ 768.00	\$ 3,072
5 Stormwater Manholes	1	EA	\$ 10,000.00	\$ 10,000
6 Outlet Control Structure	2	EA	\$ 5,000.00	\$ 10,000
7 Hydrodynamic Separator	2	EA	\$ 10,000.00	\$ 20,000
8 Bioretention Basin	10,630	SF	\$ 10.00	\$ 106,300
9 End Section	1	EA	\$ 460.00	\$ 480
10 Non-lined Drainage Channel	240	LF	\$ 9.25	\$ 2,220
			TOTAL	\$ 176,062
			SAY	\$ 176,100

NOTES:

1. This Engineer's estimate represents an opinion of the probable costs of construction, within a reasonable degree of certainty. This estimate does not guarantee the cost of labor, material, or equipment, nor the means, methods and procedures of the Contractor's work as determined by the Contractor and/or Owner, nor the competitive bidding submissions.
2. This estimate of probable construction cost based on our experience and qualifications as an engineer and shall be deemed to represent our opinion and judgment. This estimate cannot and does not guarantee that proposals, bids or actual costs will be the same as or within any specific percentage of this estimate of probable construction cost.
3. Truck wash and recycling system, including piping and drain, are not considered part of the stormwater management system.
4. Oil/water separator is included in the Utilities Estimate.

DESSY ACEVEDO
COURT CLERK TO TOWN JUSTICE

June 6, 2019

Gilbert J. Piaquadio
Town Supervisor
Town of Newburgh
1496 Route 300
Newburgh, NY 12550

SUBJECT: Clerk to Town Justice
Justice Court
Jude T. Martini, Town Justice

Dear Supervisor Piaquadio:

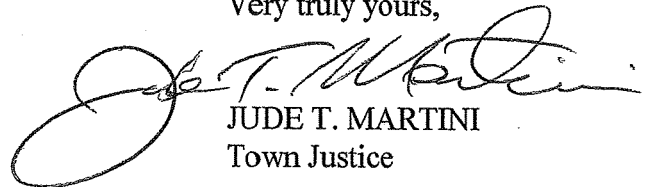

On June 3, 2019 my Clerk Dessy Acevedo submitted her resignation effective July 5, 2019 leaving that position vacant.

I am requesting that the Town Board grant me permission to begin the process to find a replacement for this appointed position.

I am requesting this matter be placed on the next agenda for approval by the Town Board.

Thank you.

Very truly yours,

JUDE T. MARTINI
Town Justice
