Future

NORM

I am concerned about any changes or construction that might be allowed in regards to the building at

317 Lakeside Road that would compromise my view of the lake. As it is now, the house is six foot in

front of my house and has an enclosed room that was to be an open porch, which is blocking my southern

view of the lake.

Enclosed are some pictures of that view.

As you may know, in the past there were variances granted that we now must live with-like the main

steps into the house only THREE INCHES from my property line.

to the town of Newburgh building, zoning and planing boards

I am concerned about any changes or construction that might be allowed in regards to the building at 317 lakeside Road that would compromise my view of the lake. As it is now, the house is six foot in front of my house and has an enclosed room that was to be a open porch, which is blocking my southern view of the lake.

Enclosed are some pictures of that view.

As you may know, in the past there were variances granted that we now must live with--like the main steps into the house only THREE INCHES from my property line.

Yours truly
