

I like to get something off my

chest. I see 2 Plattskill Tpk had white posting so I stop to read and was

annoyed. I live in area many many years and don't understand they want more.

You know there no foundation under house. I saw it build. Wood on dirt and rock. Many times

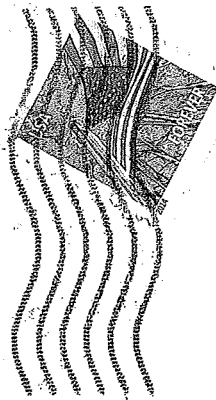

exterminator there it should be rebuild. They not nice people

See many times put there

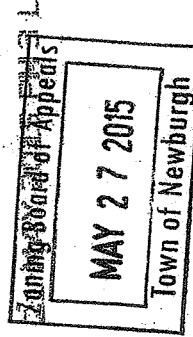

rubish across street and already they past tree property line

I drive past years. I nobody

but wish to speak. Thank you
