STORAGE SHED (PROJECT DESCRIPTION)

THIS PROJECT INVOLVES THE DEMOLITION OF A 1920 BUILT GARAGE AND REPLACING IT WITH A STORAGE SHED.

WE PROPOSE TO MOVE THE STRUCTURE APPROXIMATELY 5 FT EAST TO ALLOW FOR SPACE FOR A 120' NORWAY SPRUCE THAT HAS GROWN ADJACENT, AND IN CONTACT WITH, THE EXISTING STRUCTURE. IT IS OUR INTENT TO KEEP THE 120' NORWAY SPRUCE AND IMPACT IT MINIMALLY.

IN ADDITION, WE PROPOSE TO ADD 8' ON THE SIDE FACING THE INTERIOR OF OUR PROPERTY * SEE PLANAR (TOP) VIEW ON "PLATTE".

THIS WILL BE A WOOD FLOOR WITH A GABLE ROOF TO MATCH HOUSE. IN ADDITION, GREEN SIDING & WHITE TRIM WILL BE USED TO MATCH EXISTING HOUSE ON PROPERTY.
